Providing Safety Training for the Texas Gulf Coast Since 1987

Recently **Contractors Safety Council of Texas City (CSCTC)** purchased a fire extinguisher training system and is available to provide hands-on, live-fire training. The on-board control system realistically and automatically varies the propane-fed flames and can simulate Class A, B and C fires. In addition, there are four levels of difficulty to use. Fire extinguisher training is now clean, safe and effective.

Beginning September 1, 2008, Fire Extinguisher Training will be available. The classes will be taught by a Texas Commission on Fire Protection Standard and Education Certified and Licensed; Master Firefighter/Fire Instructor on staff with CSCTC.

CSCTC Fire Extinguisher Training will help ensure that your employees have the confidence and skills necessary to take action should a fire occur at your facility.

The **CSCTC Training** program includes:

- Video: Trains employees on the proper use of fire extinguishers.
- Instructor led Power Point Presentation
- Hands-On, Live-Fire Extinguisher Training
- OSHA 1910 Subpart E –Exit Routes, Emergency Action Plans, and Fire Prevention Plans.
- OSHA 1910.157(g)(1) — Annual Training for Incipient Fire Training

Code	Class	Member/Nonmember Cost	Estimated Length of time
07fw	Fire Watch	\$10/\$15	30-45 min
07firex	Fire Extinguisher Training	\$50/\$60	2-hrs est.

For on site classes and classes larger than 10, call for fee schedule.
